Product sheet

Acti9 IC100 switch - overload protection - 100A, 1 pole, 230V.

Brand: SCHNEIDER

Reference: IMPO CCT15482

The Acti9 IC100 is a twilight switch designed to automate the switching on and off of lights based on ambient light levels. Ideal for outdoor applications, it is easy to install and offers reliable operation in various lighting conditions.

Description

The Acti9 IC100 is a twilight switch designed to optimize lighting control in indoor and outdoor spaces. This device automates the switching on and off of lights based on ambient light, contributing to efficient energy use and extending the lifespan of lamps. It is easy to install and adapts to various electrical configurations, ensuring reliable and safe operation. The Acti9 IC100 is ideal for applications in gardens, facades, and walkways, providing convenience and safety in lighting management.

- **Device Type:** Twilight Switch
- **Sensitivity Range:** Adjustable according to user needs
- **Rated Voltage:** 230V AC
- **Load Capacity:** Up to 1000W for incandescent lighting
- **Operating Temperature:** -20°C to +50°C
- **Dimensions:** Compact and easy to install
- **Protection:** IP44, suitable for outdoor use
- **Certifications:** Complies with electrical safety regulations
- **Material:** Weatherproof plastic
- **Installation:** Compatible with standard flush-mounting boxes

Specifications

Rated current (A)	100
EAN	3606489524593
No. of poles	1P
Reference	SCHNEIDER CCT15482
Nominal voltage (V)	230V
