MD module for 1 NEXANS SIMON MD85 connector

Brand: SIMON

Reference: SIMON MD85

Nexans® RJ45 module for 1 in inclined voice and data cards. Enjoy greater connectivity with the Nexans RJ45 connector once again linked to the Simon 500 Cima Collection to provide the module with 1 RJ45 for inclined voice and data panels, with maximum functionality, in a compact space. Designed to offer the guarantee of quality connectivity, it has a plus of safety as it is manufactured with halogen-free self-extinguishing thermoplastic insulation that prevents flame spread and low smoke toxicity in the event of fire. Although the connector is not included in the MD module, it is compatible with RJ45 connectors from the Nexans range. With simple installation without the need for hardware tools, you should be aware that this product is only compatible with the Simon 500 Cima Collection inclined voice and data plates. Functionality and innovation, maximizing connectivity and minimizing space.
