Simon 75 LUCENT & ATT universal adapter module SIMON 75002-39

Brand: SIMON

Reference: SIMON 75002-39

Adapter part for Systimax® RJ45 computer connectors on Simon inclined plates. Adapter part for computer connectors with Systimax RJ45 socket on inclined plates of the Simon 75 series, it is an adapter part only for use exclusively on inclined plate. It is made of a thermoplastic material and this allows it to be used at full capacity at temperatures in the range of 5ºC and 40ºC. The Simon 75 series offers infinite solutions with a range of thirteen finishes, intermediate pieces of up to fifteen different colors and keys with six different colors, thus making an infinite number of combinations. The trim frame can have two different views, making the combinations to suit the tastes of customers. It is one of the series compatible with the components of the Simon 77 series, one of the series that is prepared to connect the cables without the need to strip them, you will not have to use any type of tool to install it, thus reducing the installation time.
