Mechanism Simon 75 socket single inductive R-TV SIMON 75486-39

Brand: SIMON

Reference: SIMON 75486-39

Single inductive R-TV signal socket. Single inductive R-TV signal socket with two connectors and one wire. Based on 9.5mm IEC connectors. Ø, this socket belongs to the wide and extensive range of Simon 75 articles. It comes with a screw terminal system, insertion operation, 7mm of bare cable and has 6 to 8mm of admitted cable section. The material with which it has been manufactured is based on metal components with halogen-free thermoplastic insulation. Its manufacture in these materials makes it capable of operating at optimum performance between 5 and 40°C, being able to be functional in extreme temperatures down to -25 and 50°C. This signal socket complies with all security systems according to current regulations of EN 50083-2: 2013.
