Mechanism Simon 75 socket R-TV inductive intermediate SIMON 75487-39

Brand: SIMON

Reference: SIMON 75487-39

R-TV + SAT signal socket non-modular intermediate. Intermediate non-modular R-TV + SAT signal socket that you can find in the Simon 75 series. The Simon 75 collection is characterized by imposing multiple color combinations, also joining an extensive range suitable for all types of decorative spaces. Creating infinite combinations with frames in 13 Finishes, intermediate pieces with 15 colors and keys with 6 available colors that allow a great variety of combinations to adapt to each of the corners of your home. You can play with the shapes thanks to the rectangular design of the beautifying frame that allows you to adopt the element in two different shapes. The compatibility with the mechanisms of the Simon 77 series is one of the best applications that have been made in terms of installation, since in just two steps you will have the operating mechanism to install the rest of the components, simply insert and press, two movements that save a lot of time.
