Bottom inlet float

Brand: VERHAL

Reference: EDM 01642

Bottom-entry float with 3/8" brass connection. Designed to operate with water pressures from 0.10 to 10 bar, this float is quiet and fast, ensuring efficient operation. Packaged in blister packs, it is ideal for various water system applications. Its brass construction ensures durability and strength, making it a reliable choice for water level control.

Description

The bottom inlet float is an essential component for plumbing systems requiring efficient water level control. Designed for optimal performance, this float features a 3/8-inch brass connection, ensuring a secure and durable installation. Its ability to operate under water pressures ranging from 0.10 to 10 bar makes it a versatile choice for various applications. Furthermore, its quiet and fast design ensures discreet operation, ideal for environments where noise may be a concern.

- **Presentation:**Blister
- **Type:**Float
- **Shape Type:**Bottom Inlet
- **Connection:**3/8" Brass
- **Applicable Water Pressure:**0.10 - 10 bar
- **Operation:**Quiet and Fast
- **Material:**Brass
- **Use:**Plumbing Systems
- **Installation:**Easy and Safe
- **Durability:**High Strength
