Frame for 4 elements white Simon 82. White color frame, this piece has dimensions of 300x89mm in which up to four elements can be coupled. This belongs to the new Simon 82 collection, which includes a multitude of original designs and colors to combine and achieve a set in perfect harmony, bringing elegance and updating the technology in every corner of your home. Its manufacturing materials include the base and the frame made of thermoplastic. For the keys and covers to be used together with the frame, we recommend the same white color finish. Additionally, it offers complete safety with this new range, as it complies with the standard: UNE-EN 60669-1:2002 + A1:2003 + A2:2009 + UNE 20315-1-1:2009. It offers great ease of cleaning, keeping it like new with just a cloth dampened with water and a little soap. The average temperature range is between 5 and 40°C, and it can reach a maximum temperature between -25 and 50°C.
