Product sheet

Hexagonal plug with female thread R-1, GAS threads, sold individually.

Brand: COFAN

Reference: COF 06170021-U

The R-1 Female Threaded Hex Plug is an accessory designed to seal female threaded and GAS threaded connections. Made of durable material, this hexagonal plug ensures a secure and long-lasting fit. Ideal for plumbing and piping applications, its design allows for easy installation and removal. It is sold individually, making it easy to purchase according to the user's specific needs.

Description

The R-1 Female Threaded Hex Plug is an essential component for applications requiring a secure and efficient seal in piping systems. Manufactured from high-quality materials, this hexagonal plug is designed to provide a robust and durable connection, ideal for use in industrial and commercial environments. Its female thread and compatibility with GAS threads guarantee a simple and effective installation, minimizing the risk of leaks and ensuring optimal performance.

- **Material:** Stainless steel or brass, depending on availability.
- **Thread Type:** Female, compatible with GAS threads.
- **Dimensions:** R-1, conforming to industrial standards.
- **Shape:** Hexagonal, facilitating grip and installation.
- **Maximum Pressure:** Suitable for high-pressure applications.
- **Operating Temperature:** Resistant to extreme temperatures.
- **Finish:** Surface treated for corrosion resistance.
- **Applications:** Ideal for plumbing, hydraulic, and pneumatic systems.
- **Standards:** Complies with quality and safety standards.
- **Sale:** Individual unit, ideal for specific projects.

Specifications

Width	4
EAN	8445187410822
Manufacturer	COFAN
Weight (kg)	0,06
