Product sheet

Brand: SIMON

Reference: SIMON KR445/9

Frame and backplate for surface and flush-mounted wall box for 2 elements, white, Simon K45. This is a frame and backplate for a surface and flush-mounted wall box designed for 2 elements. With a white finish, the mechanism is included in the wall-mounted and flush-mounted category of the Simon K45 collection. It measures 150 x 80 x 9 mm and consists of 2 wide modules. The reference includes backplates with housings for fixing to universal flush-mounted boxes. The frame is made of halogen-free thermoplastic, in line with regulations. This material is especially safe in case of fire, as it prevents the spread of flames and ensures low toxicity in the event of smoke. For proper maintenance, the manufacturer recommends cleaning the item with a soft, dry chamois. It is also advisable to avoid abrasive cleaners containing chlorine. The Simon K45 series provides all kinds of solutions to enhance connectivity at workstations.
