Product sheet

Brand: SIMON

Reference: SIMON KR445/14

Frame and backplate for surface and flush-mounted wall box for 2 elements, graphite, Simon K45. Made of stainless steel, our frame and backplate belong to the Simon K45 series and are designed for the two-element box. It measures 150x80x9 mm and includes both the frame and the backplates with housings to fix onto universal flush-mounted boxes, although it is also suitable for surface mounting on walls. And that's not all, as in addition to featuring excellent graphite finishes, the piece is made of halogen-free thermoplastic to ensure no flame spread in case of fire and minimal toxicity in the event of smoke emission. You can find our best connectivity mechanisms at an incredible price in our Simon K45 collection. We are not only concerned with offering high-quality products, but we also strive to keep improving every day through innovation.
