Brand: SIMON

Reference: SIMON 75358-39

Infrared blind receiver 700 W/VA. Modern and precise, this is how this infrared blind receiver is defined. With a power of 700 W/VA and a frequency between 50 and 60Hz, it operates connected to a 230 V power supply. The product is included in the Simon 75 series. It features 4 wires and 6 contacts in a controllable circuit. The terminal type is screw. The accepted cable cross-section is 1.5 to 2.5mm, with a cable stripping length of 6mm. It offers the possibility of centralized control from: double blind switch (75331-39), IR blind receiver (75358-39) and/or Simon Vox. 2 (81033-39). Metal components with halogen-free thermoplastic insulation form the basis of its manufacture. Its characteristics allow the product to be fully functional between 0 and 50° C, although it can withstand more extreme temperatures.
