Product sheet

Brand: SIMON

Reference: SIMON 75809-39

Self-contained emergency beacon with status indicator LED. This self-contained emergency beacon lamp automatically switches on in the event of a power supply failure, providing a 5 lux light beam for one hour. The initial charging time is 24 hours, and it features an LED indicator for mains connection. Power supply: 230 V. 50/60Hz. Accepts a cable cross-section of 1.5 to 2.5mm. The cable stripping required for making the connections is 10mm. Suitable for both surface and flush mounting. It is manufactured with metallic components, thermoplastic insulation, and is halogen-free. This product belongs to the Simon 75 series. With this collection, habitability improves because its mechanisms offer an extensive range of options to conveniently equip each space. The Simon 75 series precisely meets the new market demands for comfort and safety.
