Razorback Hardmetal Drill Bit 67 mm Depth 35 mm

Brand: BLUEMASTER

Reference: EDM 16092

Razorback hardmetal drill bit ø67 mm with a cutting depth of 35 mm, designed for resistant materials such as stainless steel and copper, equipped with TCT technology for greater durability.

View product online

Description

The Razorback hardmetal drill bit ø67 mm with a cutting depth of 35 mm is designed for demanding industrial applications in resistant materials such as stainless steel, copper, and brass. It uses TCT (Tool Carbide Tough) technology that provides higher abrasion resistance, ensuring durable performance under intensive working conditions. Its aggressive design optimizes cutting efficiency, facilitating precise and consistent operations.

Technical Features

- Diameter: 67 mm
- Cutting Depth: 35 mm

This tool is especially suitable for work on sheets up to 3 mm thick, offering reliable performance in routine or intensive industrial drilling. Its robust construction allows effective operation on synthetic materials and hard metals without compromising cut quality.

Installation is simple and regular maintenance ensures its longevity in continuous use environments. Recommended for applications requiring high precision, durability, and productivity in metal drilling processes.

Specifications

Diameter	67 mm
EAN	8422798012416
