Customizable in-desk kit with cover and brush, 2xUSB charger, 3 Schuko sockets and 2 blank plates, white Simon 400. Both homeowners and professionals in their businesses seek maximum safety for electrical installations embedded in furniture. In this regard, both can rely on the customizable in-desk kit with cover and brush, 2xUSB charger, three Schuko socket bases and two blank plates in white from the Simon 400 series. Its structure includes a painted steel enclosure, anodized aluminum profile, covers and fasteners made of self-extinguishing, halogen-free thermoplastic, providing complete safety in case of fire. This product, with dimensions of 340x185x85mm, is compatible with all functions of this range and features a Wieland® gst18i connector with three male poles and a 22 cm pigtail. With a current rating of 16A and a voltage of 250 V, its insulation resistance is >5 MO at 500 V, and its dielectric strength requires no drilling or contouring at 2000 V at 50Hz for 1 minute.
