Description

Cabinet handle type pull in aluminum with titanium finish, designed for high-quality doors and drawers. Its aluminum construction ensures corrosion resistance and a modern appearance that integrates perfectly into any interior. It is ideal for applications where durability is required without sacrificing minimalist design.

Technical Specifications

- Material: Aluminum
- Finish: Titanium
- Dimensions: 192 x 12 x 26 mm
- Distance between mounting holes: 128 mm

Its compact design facilitates installation on various types of furniture, offering a functional and aesthetic solution. Recommended for use in doors, drawers and wardrobes where a resistant and modern finish is sought.

Installation is simple thanks to the included M4 screws, allowing quick and secure fastening. It is suitable for both residential and commercial furniture projects, combining functionality with contemporary style.
