Description

The drawer handle type, model 891h, is manufactured from stainless steel with an aluminum finish, offering an ideal combination of durability and aesthetics. Its modern design fits any type of furniture, especially suitable for interior doors and drawers. This handle improves access and functionality with a durable finish.

Technical Specifications

- Material: Stainless Steel with Aluminum Finish
- Dimensions: 168 x 12 x 32 mm
- Hole Spacing: 128 mm

Installation is simple thanks to the included metric thread M4 screws, allowing for quick and secure mounting. It's ideal for interior applications where a functional and aesthetic solution is required.

The handle can be easily installed on furniture of any thickness due to its versatile design and standard hole spacing. Its aluminum finish provides a modern look that complements various decorative styles. It is a durable option for frequent use in residential or commercial environments.
