

Product sheet

Brand: SIMON

Reference: SIMON 44605000-130

Customizable kit in white, from the Simon 400 series, featuring a cover plate, brush, 5 Schuko socket bases, and 1 blank element. It features a manual lift mechanism, with a current rating of 16A and operating voltage of 250V. The materials used in its manufacture are: painted steel housing, anodized aluminum profile, and thermoplastic for the cover plates and fasteners. These materials are highly safe, as they prevent flame spread in case of fire and have low toxicity in case of smoke emission. It can be recessed into furniture using the integrated claws or screws. For cleaning, simply use a soft, dry cloth; never use abrasive cleaners and/or cloths containing chlorine in their formula, as this could cause damage and impair proper function.
