Description

The cabinet handle type knob model 2279 is an elegant and functional solution for opening doors and drawers. Made of aluminum with a matte anodized finish, it offers superior corrosion resistance and a modern appearance. Its compact design and easy installation make it an ideal choice for interior applications.

Technical Specifications

- Material: Aluminum
- Finish: Matte Anodized
- Dimensions: 8.9 x 0.8 x 1.8 cm
- Hole Spacing: 64 mm
- Includes M4 metric screws

Its aluminum construction ensures durability and resistance, while also being lightweight and easy to maintain. It is perfect for kitchen furniture, wardrobes or any surface that requires a functional accessory with an aesthetic finish.

Installation is simple thanks to the included screws, allowing quick and secure mounting on most surfaces. Suitable for indoor use where style and functionality are combined without compromising material quality.
