Customizable in-table kit with 2-opening cover and brushes, 6 Schuko sockets and 2 empty elements, white, Simon 400. With a 2-opening cover and brushes, we find this customizable in-table kit for 6 Schuko sockets and 2 empty elements, finished in white, from the Simon 400 series. It features a Wieland® gst18i three-pole male aerial connector with a 22-centimeter pigtail, an insulation resistance of >5 MO at 500 V, and is designed for 6 standard current circuit bases of 250 volts and 16 Amperes. A piece created to last, as it has a painted housing and an anodized aluminum profile. Furthermore, it is designed to prevent flame spread and the creation of toxic smoke in case of fire, as its covers and fasteners are made of self-extinguishing, halogen-free thermoplastic. To complete the installation of this product, we must use the functions of the Simon 400 series.
