Brand: SIMON

Reference: SIMON 44403000-138

Customizable in-table kit with cover and brush, 3 Schuko sockets and 1 empty element, black, Simon 400. The Simon 400 series is characterized by offering solutions for flush mounting in any type of environment. If you are looking for a piece to flush mount in a table, Simon offers this customizable kit with cover and brush, connection for 3 Schuko sockets and one empty element finished in black. The anodized aluminum profile and the painted steel enclosure provide great resistance against blows and impacts it may receive. As an extra measure against possible accidents, all products in the Simon 400 series feature self-extinguishing thermoplastic and are halogen-free, which guarantees non-propagation of fire and prevents the creation of toxic fumes. Created with 3 bases for standard current circuit of 250 volts and 16 Amperes. It can be raised manually in a simple and immediate way. The dimensions of this 4-element piece are 250x185x85 millimeters.
