Product sheet

Brand: SIMON

Reference: SIMON 46402000-138

Customizable in-table kit with 2-opening cover and brushes, 4 Schuko sockets and 4 empty elements, black, Simon 400. If we want to complete the electrical installations embedded in furniture, we must turn to the Simon 400 series. In this range, we can acquire the customizable in-table kit with a cover featuring two openings and brushes, four Schuko socket bases, and four empty elements in black, a product that stands out for its low price and is compatible with the rest of the products in the Simon 400 series. Its structure is composed of a painted steel housing, an anodized aluminum profile, and covers and fasteners made of self-extinguishing, halogen-free thermoplastic, materials that guarantee the avoidance of risks in case of fire. What are its qualities? Current (16A), voltage (250 V), insulation resistance (>5 MO at 500 V), connector (Wieland® gst18i with three male air poles with a 22 cm lead) and dielectric strength (without perforation or contouring at 2000 V at 50Hz for 1 minute).
