Product sheet

Brand: SIMON

Reference: SIMON 44402000-130

Customizable in-desk kit from the Simon 400 series in white. It includes 2 Schuko socket bases, cover, brush, and 2 empty elements. Dimensions are 250x185x85mm, elevation is manual, and wiring access is via brush. Rated current is 16A and operating voltage is 250V. Installation can be flush-mounted in furniture, with fixing using the supplied claws or screws inserted through the available holes. The kit housing is made of painted steel, the profile of anodized aluminum, and the covers and fasteners of halogen-free, self-extinguishing thermoplastic, a highly safe material that prevents flame spread and ensures low toxicity in case of smoke emission. Maintenance is very simple: just wipe with a soft, dry cloth.
