Description

Integrated 15W LED fixture with warm light and PVC module, designed for easy installation in indoor spaces. Its LED technology offers efficient and durable lighting, suitable for residential or commercial environments where soft and uniform brightness is required.

Technical Specifications

- Power: 15W
- Light Color: Warm
- Module Material: PVC

This LED fixture stands out for its ease of installation and compatibility with standard electrical systems. Its compact design allows discreet integration in any space without compromising light performance.

Recommended for use in residential areas, offices, or commercial spaces where energy savings and consistent low-consumption lighting are desired. Installation is simple and does not require special tools, facilitating its implementation in various environments.

Specifications

Colour	Cálida
EAN	8435197433461
Material	PVC

Type of lamp	LED
