Product sheet

Brand: SIMON

Reference: SIMON 44401000-138

Customized flush-mounted kit in black, belonging to the Simon 400 series. It includes a brush and cover, 1 Schuko socket base, and 3 empty elements. Its dimensions are 250x185x85mm, it features manual elevation, and access to the wiring is achieved via the brush. The kit's current rating is 16A and it operates with a 250V power supply. Installation is very simple, as it can be embedded in furniture and secured using the claws supplied with the kit or screws, by placing them in the available holes. The following materials were used in the manufacture of this kit: anodized aluminum for the profile, painted steel for the enclosure, and halogen-free, self-extinguishing thermoplastic for the covers and fasteners. Cleaning is quite simple, as you only need to wipe it with a soft, light cloth, without resorting to abrasive cleaners containing chlorine.
