Product sheet

Brand: SIMON

Reference: SIMON 44401000-130

Customizable in-desk kit, part of the Simon 400 series, featuring a cover, brush, 1 base for Schuko-type sockets, and 3 empty elements. It has dimensions of 250x185x85mm, manual elevation, and wiring access via brush. Its current rating is 16A and it operates at a voltage of 250V. Installation is flush-mounted in furniture, using the integrated claws or screws through the available holes. To complete the product installation, it must be combined with Simon 400 functions (references 4000XXX-03X). Installation must always be performed in locations with temperatures between -5 and 60ºC, although it supports higher extreme temperatures. In the manufacture of this customizable kit, anodized aluminum was used for the profile, painted steel for the enclosure, and halogen-free, self-extinguishing thermoplastic for the fasteners and covers. To clean this kit, simply use a soft, dry cloth.
