Customizable in-table kit with 2-opening cover and brushes, 4 Schuko sockets and 8 empty elements, black, Simon 400. The 2-opening cover with brushes, four Schuko socket bases, and eight empty elements are the features of the customizable in-table kit in black from the Simon 400 series. The product is suitable for flush mounting in furniture with a current rating of 16A and voltage of 250 V. It has an insulation resistance of >5 MΩ at 500 V and a dielectric strength without perforation or contouring of 2000 V at 50Hz for one minute. It must be combined with the functions of the Simon 400 series to complete its installation. Additionally, this kit includes a Wieland® gst18i figure connector with three male aerial poles and a 22 cm pigtail. Its structure consists of a painted steel enclosure, anodized aluminum profile, covers and fasteners made of self-extinguishing, halogen-free thermoplastic, components that prevent toxic gases and flame spread in case of fire.
