Product sheet

Brand: SIMON

Reference: SIMON 46602000-130

Customizable in-table kit with 2-opening cover and brushes, 4 Schukos and 8 empty elements, white Simon 400. The resistance and durability over time in the electrical systems of homes and businesses is made possible by the customizable in-table kit with a cover featuring two openings and brushes, and eight empty elements in white from the Simon 400 series. This device includes four Schuko sockets for standard current circuits, as well as a structure designed with a painted steel enclosure, anodized aluminum profile, and covers and fasteners made of self-extinguishing, halogen-free thermoplastic, ensuring high fire safety. Dielectric rigidity without perforation or tracking at 2000 V at 50Hz for one minute, insulation resistance of >5 MO at 500 V, and a Wieland® gst18i figure connector with three male air poles and a 22 cm pigtail are other features of this kit, which has a current rating of 16A and a voltage of 250 V. Suitable for flush mounting, Simon recommends combining it with the functions of the 400 range to complete the product installation.
