Product sheet

Brand: SIMON

Reference: SIMON 46603000-130

Customizable in-table kit with 2-opening cover and brushes, 6 Schuko sockets and 6 empty elements, white Simon 400. Do you want to avoid the negative consequences of suffering a fire in the electrical installations of your home or business? Then you must acquire the customizable in-table kit with a cover with two openings and brushes, six Schuko socket bases and six empty elements in white color from the Simon 400 series. The structure of this device is designed with a painted steel enclosure, anodized aluminum profile, covers and fasteners in self-extinguishing thermoplastic free of halogens. Suitable for embedding in furniture, it features a Wieland® gst18i figure connector with three male poles, aerial with a 22 cm lead, with an intensity of 16A and voltage of 250 V. This product has a dielectric strength without perforation or contouring of 2000 V at 50Hz for 1 minute and an insulation resistance of >5 MO at 500 V. To complete the installation of the product, Simon recommends combining it with the functions of the 400 range.
