Product sheet

Brand: SIMON

Reference: SIMON 46401000-138

Customizable in-table kit with a cover featuring two openings and brushes, two Schuko socket bases, and six empty elements in black from the Simon 400 series, is the best ally for achieving maximum safety in residential and commercial electrical installations. This product features dielectric rigidity without perforation or contouring at 2000 V, 50Hz for 1 minute. With an insulation resistance >5 MO at 500 V and a Wieland® gst18i connector with three male air poles and a 22 cm pigtail, this kit, suitable for embedding in furniture, has a current rating of 16A and a voltage of 250 V. Its structure stands out for its resistance, manufactured with a painted steel enclosure, anodized aluminum profile, and covers and fasteners made of self-extinguishing, halogen-free thermoplastic. It is also compatible with all functions of the Simon 400 range.
