Product sheet

Brand: SIMON

Reference: SIMON 44606000-130

In-table kit in white, from the Simon 400 series. It is a complete kit including cover, 6 Schuko-type socket bases, and brush. Its dimensions are 340x185x85mm, it has a current rating of 16A and operates at a voltage of 250V. It is a kit suitable for recessed installation in furniture; to secure it, you can use the claws supplied in the kit or screws placed in the available holes. It is manufactured with a painted steel enclosure, anodized aluminum profile, and covers and fasteners made of self-extinguishing, halogen-free thermoplastic, materials that help maintain a low level of toxicity in case of smoke emission and prevent flame spread in the event of a fire. Cleaning is very simple: you only need to wipe it with a soft, dry cloth, avoiding the use of any abrasive cloths or chlorine-based cleaners, as they could damage it.
