Description

Description

To install a cover plate, a box must be placed in the wall or masonry, to which the cover plate will subsequently be fixed.
In cases where it is not desired or not possible to cut a recess in the wall for a flush-mounted box (marble facades, stone, etc.), it is recommended to use a surface-mounted box.
The depth is only 33mm., and its design integrates perfectly with the aesthetics of the cover plate.
When combining multiple cover plates, the use of the separator set is not required.
Available in all series. Select the box of the required series, as appropriate.

Technical specifications

SERIE 5
Dimensions: 130x246x33 mm (horizontal-vertical-depth).

Weight: 0,44475 kg

Packaged product dimensions: 24,8x13x3,4 cm

EAN 13: 8424299070650
