Product sheet

Brand: SIMON

Reference: SIMON 42606000-130

Complete desktop kit with 6 white Schuko socket bases Simon 400. Complete desktop kit, from the Simon 400 series, in white color, featuring 6 Schuko socket bases. It has dimensions of 295x120x80mm, a current rating of 16A, and operates at a voltage of 250V. Its lifting mechanism is manual, and access to the wiring is provided via a brush. It is made of the following materials: the cover plate is painted steel, the profile is anodized aluminum, and the covers and fasteners are halogen-free, self-extinguishing thermoplastic, which helps prevent flame spread (in case of fire) and ensures low toxicity (in case of smoke emission). Cleaning is very easy; you only need to wipe it with a soft, dry cloth. Never use cloths or abrasive cleaners containing chlorine in their formula, as this could cause damage and impair full functionality.
