Product sheet

Brand: SIMON

Reference: SIMON 46606000-130

Complete in-table kit with cover, 2 openings, brushes, and 12 white Schuko socket bases Simon 400. Preventing flame spread in case of fire and low toxicity in case of smoke emission in residential and commercial electrical installations is possible thanks to the complete in-table kit with cover, two openings, brushes, and twelve white Schuko socket bases from the Simon 400 series. Suitable for furniture embedding, it features a Wieland® gst18i figure connector with three male poles, an aerial pigtail of 22 cm, a current rating of 16A, and a voltage of 250 V. To complete the product installation, Simon recommends combining it with the functions of the 400 range. This product has an insulation resistance of >5 MO at 500 V and a dielectric strength without perforation or contouring of 2000 V at 50Hz for 1 minute. Its structure is manufactured with a painted steel enclosure, anodized aluminum profile, and covers and fasteners made of self-extinguishing, halogen-free thermoplastic.
