Product sheet

Brand: SIMON

Reference: SIMON 46404000-130

Complete in-table kit with cover featuring 2 openings, brushes, and 8 white Schuko socket bases, Simon 400. For those who need a design-oriented, functional product with a high number of connections, Simon launches this complete in-table kit with a 2-opening cover, brushes, and 8 white Schuko socket bases, from the Simon 400 series. With a voltage of 250 volts and an intensity of 16 Amperes. This highly resistant piece is made of metal and features an anodized aluminum profile, which, combined with its painted steel housing, provides great resistance to all types of impacts. Simon strives to offer durable and safe products; therefore, to prevent accidents, it creates its 400 series with covers and fasteners using self-extinguishing, halogen-free thermoplastic that guarantees non-propagation of fire and does not release toxic fumes. To complete its installation, it must be combined with Simon 400 functions. Its maintenance is very simple, as a simple dry and soft cloth is sufficient to keep this kit looking like new.
