Product sheet

Brand: SIMON

Reference: SIMON 27102-62

Single-pole switch in ivory color, 10AX and 250V, from the Simon 27 Play series. Features a rocker function and a quick and safe terminal system. The accepted cable cross-section is 1.5 to 2.5mm, and the required cable stripping length for connection is 11mm. It includes a luminous pilot in the upper central part of the component and is compatible with reference 2700802-037 in case of replacement of the luminous indicator. This reference is also available in white color. It has a square shape with dimensions of 45x45mm. Suitable for both flush and surface mounting. Manufactured with metallic components, halogen-free insulation, and a thermoplastic cover. For cleaning, use a soft, dry cloth, avoiding the use of strong products that may contain chlorine. Simon 27 Play, a collection that adapts to different spaces and cares for the details.

Description

Wide pilot single-pole switch Simon 27 marfil SIMON 27102-62

The **Simon 27** series is one of Simon's most versatile and colorful mechanism series. It features a wide range of interchangeable frames and covers to best adapt to the needs of each project.

Although the mechanism is shared across the different variants of the series, the frames offer a wide range of possibilities.

On one hand, there is the classic **Simon 27** series, with frames featuring intermediate and external trim pieces, with more rounded finishes.

On the other hand, there are the frames of the **Simon 27 NEOS** series, finished in matte or glossy glass, with soft and bold colors, giving a completely different look to the classic series.

Finally, the **PLAY** range changes the appearance of the frames, available in two colors, white and marfil,

but with a multitude of interchangeable covers, from the simplest to the boldest and most unrestrained.

In addition, this mechanism is also suitable for the **Simon 44 Aqua** series, Simon's waterproof series.

Specifications

Colour	Marfil
EAN	8421053035917
Manufacturer	Simon
Piece type	Electrical mechanisms
Series	Simon 27
