Product sheet

Brand: SIMON

Reference: SIMON H114U

Husillo for combining with a 114mm diameter cutout ring for installing the Teleblock Simon K45 telescopic profile. Do you need to improve everything related to electrical mechanisms in a workplace and make those systems as accessible and comfortable as possible? Recently, Simon has also specialized in mechanisms designed for workstations that promote connectivity. The Simon K45 series is a good example. This husillo belongs to that series and is intended for combining with a 114mm diameter cutout ring. It is indicated for installing the Teleblock telescopic profile from the same Simon K45 series. The product reference is: H114U. The manufacturing material is tempered steel, which is steel that has been thermally treated to harden it, thereby increasing its hardness and mechanical resistance. This husillo is suitable for flush mounting in products from the Teleblock Simon K45 range, in furniture.
