Product sheet

Brand: SIMON

Reference: SIMON G401

Plastic tray for square floor box with reduced depth in flooring for 8 Simon 500 Cima elements. The Simon 500 Cima series includes in its extensive catalog the Plastic tray for square floor box with reduced depth in flooring for eight elements. With dimensions of 419x384x54mm, the floor covering must be placed up to the entrance of the cover plate when carrying out its installation, which can be done without the need for prior professional knowledge in a few minutes. That easy and simple. Especially designed to be installed in flooring, educational centers, hospitals or hotels already enjoy all the advantages of this tray. Resistance, durability and safety are three characteristics present in its structure made with halogen-free thermoplastic material, a component that guarantees non-flame propagation in case of fire and low toxicity in case of smoke emission.
