Product sheet

Brand: SIMON

Reference: SIMON K109/8

Key for single-pole switching mechanisms with 1 element, aluminum finish, Simon K45. Key for single-pole switching mechanisms with 1 element, featuring an aluminum finish and belonging to the Simon K45 series, a collection designed to facilitate connectivity at workstations. This product is suitable for surface mounting and flush mounting. It is made of halogen-free thermoplastic material, which provides maximum protection in case of fire by preventing flame spread and significantly reducing toxicity in the event of smoke emission. The key complies with current regulations and has dimensions of 45x22.5x10mm. For maintenance, use a soft, dry cloth and wipe gently. Avoid abrasive cleaners containing chlorine. Please note that it is not possible to combine two control mechanisms with a narrow key on a Simon 500 Cima to Simon K45 adapter plate.
