Product sheet

Brand: SIMON

Reference: SIMON K302

16AX 250V Switch with status indicator and quick connection system Simon K45. Ideal for work areas, the status indicator switch from the Simon K45 collection brings efficiency, functionality, and innovation to any room. Designed for flush or surface mounting, and featuring a quick connection system, it does not require the use of additional tools and facilitates the assembly and commissioning of the mechanism. Compatible with a supply voltage of 250 Volts and an intensity of 16AX, it has dimensions of 22x45mm, with an accepted cable cross-section of up to 1.5mm and a cable stripping length of 11mm. It is manufactured with metallic components with halogen-free insulation and a thermoplastic cover, which protects the room in case of fire and allows the assembly to reach maximum temperatures of -25 to 50 ºC. For its correct installation, please note that you cannot combine 2 control mechanisms with a narrow key on a Simon Cima to Simon K45 adapter plate.
