Product sheet

Brand: SIMON

Reference: SIMON K110/8

Key for single-pole switching mechanisms, 1-gang, aluminum, Simon K45. With the simplicity and elegance of aluminum finishes, the key for single-pole switching mechanisms from the Simon 45 collection combines functionality, aesthetics, and innovation in a compact space perfect for offices and work areas. Designed for 1-gang, it is made of halogen-free thermoplastic materials that ensure room safety in case of fire by preventing flame spread and smoke toxicity. Thanks to this material, it can withstand temperatures exceeding 60 ºC. With dimensions of 45x45mm and a depth of 10mm, it is suitable for both flush and surface mounting, adapting to the aesthetic and functional needs of each space.
