Product sheet

Brand: SIMON

Reference: SIMON 27202-64

10AX 250V half-module switch with integrated pilot light and quick connection system, white, Simon 27 Play. In white, we offer this switch with a current rating of 10AX and a voltage of 250 V, featuring a half-module design, an integrated pilot light, a quick connection system, and a rocker operation, from the Simon 27 Play series. It is also compatible with reference 2700802-037 if you wish to replace the provided luminous indicator, and it includes a signaling function. Installation is very simple, as it allows adaptation for surface or flush mounting. The cable cross-section must be between 1.5 and 2.5 mm. The element dimensions are 22.5x45 mm, and the luminous indicator consumption is 0.55 mA. Thanks to its manufacture with metallic components and thermoplastic insulator, it can operate over a wide temperature range (5ºC - 40ºC). To keep it looking new, it is best to use a soft, dry cloth without soaking it in any liquid, as liquids may contain toxic agents or chlorine.

Description

Narrow pilot switch Simon 27 snow white SIMON 27202-64

The **Simon 27** series is one of Simon's most versatile and colorful mechanism series. It features a wide range of interchangeable frames and covers to best adapt to the needs of each project.

Although the mechanism is shared across the different variants of the series, the frames offer a wide range of possibilities.

On one hand, there is the classic **Simon 27** series, with frames featuring intermediate and external trim pieces, offering a more rounded finish.

On the other hand, there are the frames of the **Simon 27 NEOS** series, finished in matte or glossy glass, with soft and bold colors that give it a completely different look from the classic series.

Finally, the **PLAY** range changes the appearance of the frames, available in two colors, white and Marfil, but with a multitude of interchangeable covers, from the simplest to the boldest and most unrestrained.

In addition, this mechanism is also suitable for the **Simon 44 Aqua** series, Simon's waterproof series.

Specifications

Colour	White
EAN	8421053035962
Manufacturer	Simon
Piece type	Electrical mechanisms
Series	Simon 27
