Product sheet

Brand: SIMON

Reference: SIMON 27202-62

10AX 250V Switch with built-in pilot light and quick connection system, Marfil, Simon 27 Play. The products in the Simon 27 series stand out for efficiently combining a neutral-line design that suits modern, simple, and functional environments with a touch of color in all items included in this range. One of them is the Switch with a 10A intensity mechanism and 250V voltage, built-in pilot light, and quick connection system in Marfil. For installation, the use of a universal flush-mounted box is required, or alternatively a surface-mounted backbox. It must not be used to switch lighting loads exceeding 2300W. Its operation is rocker-type and it can be combined with reference 2700802-037 in case of replacing the luminous indicator. It has two modules and dimensions of 45x45mm. Its indicator consumption is 0.55 mA and it is designed to withstand low and high temperatures.

Description

Wide pilot switch Simon 27 ivory SIMON 27202-62

The **Simon 27** series is one of Simon's most versatile and colorful mechanism series. It features a wide range of interchangeable frames and covers to best adapt to the needs of each project.

Although the mechanism is shared across the different variants of the series, the frames offer a wide range of possibilities.

On one hand, there is the classic **Simon 27** series, with frames featuring intermediate and external trim pieces, with more rounded finishes.

On the other hand, there are the frames of the **Simon 27 NEOS** series, finished in matte or glossy glass, with soft and bold colors, giving a completely different look to the classic series.

Finally, the **PLAY** range changes the appearance of the frames, available in two colors, white and ivory, but with a multitude of interchangeable covers, from the simplest to the boldest and most unrestrained.

In addition, this mechanism is also suitable for the **Simon 44 Aqua** series, Simon's waterproof series.

Specifications

Colour	Marfil
EAN	8421053035955
Manufacturer	Simon
Piece type	Electrical mechanisms
Series	Simon 27
