Brand: SIMON

Reference: SIMON 75544-39

RJ45 AMP® Category 6 UTP data connector. This RJ45 AMP Category 6 UTP data connector is a valid mechanism compatible with the Simon 27, Simon 31, Simon 75, Simon 82, and Simon 88 series. It belongs to the range of flush-mounted mechanisms; the Simon 75 series mechanism set offers each customer an extensive range of options. The range provides an infinite variety of customization combinations, allowing multiple colors to be selected within the same frame. The components are compatible with the Simon 82 series in terms of component customization. Combine different frames, intermediate components, and keys of different colors to bring a unique design to your home. The data connector complies with the IEC 60603-7-2 standard and is manufactured using metallic components with thermoplastic insulation, and is halogen-free, ensuring it withstands a wide temperature range with maximum performance.
