Brand: SIMON

Reference: SIMON 75542-30

White RJ45 Systimax® Category 5e UTP data connector. This is a white-finish RJ45 Systimax® Category 5e UTP data connector. The termination system for this item is insertion-based, ensuring a quick and simple installation. The connector belongs to the Simon 75 series, a collection whose mechanisms adapt perfectly to any environment. One of the innovations of the series is its electronic functions. These are designed to meet the needs of modern homes. This specific piece has been manufactured in strict compliance with the IEC 60603-7-2 standard, which regulates this type of device. The connector contains metal components with insulation made from halogen-free thermoplastic, a notable feature that provides the user with maximum safety. Another quality of the product is its thermal resistance, allowing it to be installed in all types of spaces.
