Product sheet

Brand: SIMON

Reference: SIMON 40001194-030

HDMI Type "A" female-to-female connector with pigtail and integrated plate, in white color, belonging to the Simon 400 series. Cleaning is very simple, as you only need to use a dry, soft cloth, avoiding abrasive cleaners and/or cloths containing chlorine in their formula, as these could damage the connector and prevent it from functioning correctly. It can be installed in rooms with temperatures ranging from -5 to 60ºC, although it is capable of withstanding extreme temperatures of over 60ºC, approximately, making it a perfect series for all types of climates, regardless of the temperature. Simon 400 is a range of mechanisms that can be installed both surface-mounted and flush-mounted, and stands out for offering highly innovative aesthetics that integrate perfectly into all types of environments.
