Product sheet

Brand: SIMON

Reference: SIMON K126D/14

Graphite black 2.1A charger via USB Type-A port for the Simon K45 series. With dimensions of 22.5x45mm, it allows charging USB devices up to 2.1A. However, the best feature, without a doubt, is its manufacture with metal components coated with self-extinguishing, halogen-free thermoplastic insulation, ensuring that flames do not spread in case of fire, as well as low toxicity in the event of smoke emission. Indeed, the Simon K45 collection offers solutions suitable even for the most demanding users.
