Product sheet

Brand: SIMON

Reference: SIMON KF300C/1

Square floor box with reduced depth for 6 elements in grey flooring or technical floor Simon K45. Within the Simon K45 range of floor-mounted flush installations, this square floor box with reduced depth stands out. It allows the connection of six elements in dimensions of Ø 300mmx69mm and is supplied in a single version of six elements with three double modules. Its design allows installation in any type of flooring, both in technical floors and in paving. In paving, it must be combined with the basin ref G301C; if the same floor covering is not installed, it can be combined with the flush decorative cover (ref. 52053203-035). It is made of high-quality self-extinguishing thermoplastic material that offers safety against fire and smoke intoxication thanks to its halogen-free manufacturing. The box is manufactured in grey and is perfect for incorporating into any type of room, both in the home and in professional environments.
