Product sheet

Brand: SIMON

Reference: SIMON KLS01/14

Schuko socket base 16A 250V with safety shutter, luminous indicator, graphite screw connection Simon K45. The Schuko socket base KLS01/14 belongs to the Simon K45 series and features a safety shutter, luminous indicator, and screw connection available in graphite finishes. Additionally, in case of breakage or loss, you can request a replacement pin using reference AC33/6. Thanks to our commitment to safety, this component is manufactured with halogen-free metallic materials reinforced with a special thermoplastic insulation that prevents flame spread in case of fire, while also ensuring low toxicity in the event of any smoke emission. This part is compatible with elements of up to 250 Volts of voltage and 16 Amperes of intensity. The Simon K45 collection is characterized as the perfect solution for those most demanding in terms of home protection, always guaranteeing constant innovation and improvement in our products. Trust us and our specialists to protect your home.
