Product sheet

Brand: SIMON

Reference: SIMON K01/6

Schuko socket base 16A 250V with safety device and red screw terminal Simon K45. Individual Schuko format socket base with two modules from the Simon K45 series. A highly versatile model suitable for all types of surfaces, facilitating flush mounting, featuring screw terminal connection and red color finishes. This Schuko socket series is designed for compatible systems with 16 Ampere intensity and 250 Volt tension. The Simon K45 range stands out for integrating metallic components with halogen-free thermoplastic insulation, guaranteeing a professional level of protection and safety. The K01/6 socket base has dimensions of 45x45mm and a cable stripping length of 12mm, making it an ideal component for any type of installation. It is a model that provides simple, quick, and safe mounting, adaptable to a wide variety of working environments, ensuring professional and stable connection quality.
