Product sheet

Brand: SIMON

Reference: SIMON KLS01/9

Schuko socket base 16A 250V with safety shutters, luminous indicator, white screw terminal Simon K45. Simon K45 Schuko-type socket base, 2 modules, manufactured in white, ideal for surface mounting in any type of room. Its termination type is screw and it has a voltage of 250 V and a current rating of 16A. Additionally, it features a signaling function. Its dimensions are 45x45x39mm and the cable cross-section is 1.5 to 2.5mm, while the cable stripping length is 12mm. The Simon K45 base in white has been manufactured with halogen-free insulated metal components and self-extinguishing thermoplastic. This ensures non-propagation of flames in the event of a fire and also guarantees low toxicity in the event of smoke emission. It is a base suitable for surface and flush mounting and can be installed in locations with temperatures between -5 and 60ºC.
